

RECEIVED
SAN JUAN RESOURCE AREA

NOTICE
OR
PLAN OF OPERATIONS

1001 APR 10 AM 8:08 (For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions: Circle "Notice" (above) if proposed mining activity within the project area will disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if disturbance will exceed five acres during the calendar year or if operations are within one of the specially designated areas described in 43 CFR 3809.14(b). Complete the form in as much detail as possible. Additional sheets may be used if necessary. Use maps or sketches where appropriate. A review of the 43 CFR 3809 regulations should be conducted prior to completion of this form.

Operator Information:

<u>Name</u>	<u>Address</u>	<u>Telephone</u>
Dan Shumway	Kiva drive 5-2 BLANDING, Ut 84511	801-678-2976

Claimant Information (If different than operator):

<u>Name</u>	<u>Address</u>	<u>Telephone</u>
-------------	----------------	------------------

Claim Information (Claim names, circle claim types (Lode, Placer Mill Site, Tunnel), BLM Serial No.):

Golden Chantz
Lucky Chantz

RECEIVED

APR 15 1991

Location of Proposed Activity (i.e. Township, Range, Section):

SEC. ¹⁸19, T 36S, R 23E S.L.B.M.

DIVISION OF
OIL GAS & MINING

Describe Existing Disturbance and Structures or Indicate on Maps or Sketches (Mine and Mill Facilities, Workings, Tailings, Dump Areas, etc. It may be to your advantage to document existing disturbance with photographs):

Existing Disturbances are mainly the work done by the ^①water Conservancy District and ^③Archaeological Disturbances ~~to~~ Associated with laying the pipe line - I saw evidence of Both ~~of~~ these on the Claims - they are probably well documented. (there are lots of survey stakes)

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.) List all mechanized earth-moving equipment to be used during the operation and state if explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing the locations and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 acre = 43,560 sq. ft.)

There will be no mechanized earth-moving equipment or explosives used.

I will put 3 Test or prospect holes approx 4'x4' in the loose gravel of the stream course. (indicated by Red "X's" on accompanying map).

THE proposed route of access is existing road (shown in Red on map)

I have walked this road and it is not washed out bad enough to ~~have~~ have any work done on it other than throwing a few rocks out.

I will dig the prospect holes by hand using shovel, pick, BAR and a 3" or 4" suction dredge.

Period of Operation: From April 1991 To Oct. 1991

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of nonoperation is anticipated.

THESE TEST HOLES will be dug in the gravel in the stream - I hope the stream doesn't fill them back up faster than I can dig them. In any event common sense indicates that the stream will refill them during any extended period of non-operation.

I will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Signature of Operator: Alan Shumway

Date April 8, 1991

NOTICE TO OPERATORS:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 calendar days before commencing operations. Receipt of a notice will be acknowledged promptly. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a submitted plan and will notify the operator of the status of the plan within 30 days of receipt of the plan.
2. Submittal of a notice or approval of a plan of operations does not constitute certification of ownership to any person named as owner herein, nor does it constitute recognition of the validity of any mining claims named herein.
3. Generally, information that could be considered proprietary is not necessary to fulfill notice or plan of operations requirements. However, information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately and will not be available for public inspection.
4. Failure of operator to file a notice or a plan of operations, as required by the 43 CFR 3809 regulations, will subject the operator to being served a notice of noncompliance or enjoined from the continuation of such operations by a court order until such time as a notice or plan is filed with the BLM.
5. The completed notice or plan of operations should be filed with the appropriate resource area office. Their addresses are as follows:
